## THE LID IS ON AT MADISONVILLE

Mayor D. W. Gatlin Will Have Sunday Closing Law Enforced.

FIRMS NOTIFIED BY CHIEF OF POLICE

The lid is on at Madisonville and the Sunday closing law will be enforced. Chief of Police Graddy acting under instructions of Mayor Gatlin has notified all firms they must close on Sunday. Nothing but drug stores will remain open and they only to sell medicine. This action was taken on account of some of the soft drink establishments that have been giving trouble and the Mayor and City Council have been petitioned by a goodly number of citizens to have these resorts closed. As the Mayor saw the situation he could not discriminate and the only thing left for him to do was to close them all.

A Statement From Mr. Gatlin.

"The violation of the ordinance regulating Sunday closing has become so universal that we are seriously handicapped in the enforcement of the law, and it is our purpose to take a firmer grip on the situation. Numerous complaints, both from the business people, as well as from the citizens generally, are constantly being made of the violation of the Sunday closing law, and a number of the business people are anxious to observe the law if it is made applicable to all alike.

"Certain places in the city that are hard to police and control have equipped themselves with such articles as are sold in drug stores on Sunday in order that they may remain open on Sunday, and it is necessary that there be a more uniform observance of the law in this respect."

Chief of Police Graddy stated that he had been ordered by the Mayor to enforce the Sunday closing law and would arrest all violators.

From what the Semi Weekly Bee could gather the people are about equally divided on the question, some favoring a strict enforcement of the law and others in favor of a wide open town while quite a number are in favor of allowing these places to open certain hours on the Sabbath day.

The Bee called up the livery firms of Rudd & Cardwell, Bennett & Crow and the two Barnhills and they all stated they would be open for business on Sunday as usual and would rent their horses and vehicles.

Following is the Law in the case.

Section 24. of the city ordinances provides that:

"No work or business shall be done on the Sabbath day, except the ordinary household offices or other work of charity or necessity."

"If any person on the Sabbath day be found at his own or any other trade or calling or shall employ his apprentices or other persons in labor or other business whether the same be for profit or amusement, unless as is permitted above, he shall be fined not less than two, nor more than fifty dollars for each offense."

"Every person or apprentice so employed shall be deemed a separate offense. Persons who are members of a religious society, who observe a Sabbath day any other day in the week than Sunday, shall not be liable to the penalties prescribed in this ordinance."

nances, if they observe as the Sabbath day in each seven as herein provided."

This ordinance is an exact copy of section 132S of the Kentucky Statutes also in force throughout the State.

### WEDDED AND PARTED

The Bride of a Day Taken From Her Youthful Husband by Force.

Although legally married Hugh Chaney, of this city, aged 17 and Miss Willie Poole, aged 12 years, of Nortonville are not living together.

The boy's mother and brother were in favor of the marriage and decided to accompany the couple to Springfield, Tennessee, where they were married Tuesday morning. They left here on the Dixie Flyer and were married immediately after arriving at Springfield, returning home on the next northbound train.

Jeff Poole, the father of the girl, who is a coal miner at Nortonville, was violently opposed to the match on account of a personal dislike for the boy and also on account of the tender years of his daughter.

When the Dixie Flyer north bound came through Nortonville Tuesday night Poole jumped on the train, seized his daughter by the arm and informed the husband and relatives that he was going to take the girl home and did not want to see any of them around.

He took the girl off the train and that was the last of her husband has seen of her. The husband, brother and mother protested against the actions of Poole, but to no effect. When asked by an Earlinton man why he let the old man takes his wife, Chaney replied, "I had no gun and could not help myself." Friends are trying to smooth out the matrimonial trouble of this young couple.

### STEEL CARS WITH STAND COLLISION

Serious Test Given Steel Train on Pennsylvania--Would Have Crushed Wooden Cars.

Altoona, Pa., Nov. 16.—Manhattan Limited, east bound over the Pennsylvania, due here at 2:10 a. m., had a narrow escape from serious wreck at Sang Hollow, seven miles west of Johnstown, when the trainee, it is said, mistook a snowcapped signal for a white block. It plunged into the rear end of an east bound freight, but the limited composed of all steel cars withstood the force of the collision and no one was injured, although the postal car, combination car and one of the sleepers were derailed. The impact would have crushed the old style wooden cars.

There's them that wants to get us skeered By tellin' us o' things they've feared.

They say we're goin' to th' dogs, Th' government has shipped some cogs An' that of we don't trust to them Our futur' won't be with a dem!

But I want to say

Th' U. S. A.

Ain't figgered to run that way.

I've noticed things for many years; I've seen these men arousin' chears— These ping hat men with long-tail coats That tells us how to cast our votes.

I've noticed, too, their ideas is

That votin's all th' people's biz.

But I want to say

Th' U. S. A.

I've seen 'em lift their trumbin' arm

An' do their plintin' with alarm—

Afore election! An' I've seen

How they don't do much work between

Election! Seems to save their brains

For workin' durin' th' campaigs.

An' I want to say

Th' U. S. A.

Don't give them fellersits O. K.

There's one or two that I won't name

That keeps a firm hand-holt on Fance

By stormin' up an' down th' road

A-tellin' us what long we've known—

That is, they rise to heights sublime

Along about election-time.

An' I want to say

Th' U. S. A.

Ain't figgered yet to turn their way.

It ain't th' men that tells our sirs

That almost always sometimes wins—

It's them that rolls their sleeves an' helps

While these yere talkin' humans yelps,

That makes us know our nature land

Has got a crew that's full o' sand,

An' makes us say

Th' U. S. A.

### ILLINOIS CENTRAL ANNUAL

Old Officials Re-elected With the Exception of Harahan.

New York, Nov. 16.—The old officers of the Illinois Central railroad, with the exception of President J. T. Harahan, who is to retire next January, when he reaches the age limit, were re-elected to-day by the directors of the railroad.

No action was taken by the directors with respect to choosing a successor to Mr. Harahan, who retires from office on January 12. The induction was forthcoming that Mr. Harahan might resign office before the December meeting of the directors, when a new president may be selected. Directors of the company were forth to talk of Mr. Harahan's retirement.

It was decided to keep the railroad in operation, but to have the sale of the grounds, which took place last week, following the foreclosure of a mortgage, at the court house to pay a debt of \$1,949,49, of ten years standing. The sale however brought more than was expected being bid in at \$6,500 by Willis N. Rudd. Some of the stockholders objected to the sale of the grounds that only enough of the land should be sold as may be necessary to pay the debt.

A meeting of the stockholders has been called to be held at the law office of Gordon, Gordon & Cox, on Saturday, November 26, to consider the situation and take such action as the stockholders deem best.

It was Mr. Rudd's intention to lease the grounds to fair promoters.

Ogden Arnour, the Chicago packer, said yesterday that not only had there been reductions in the price of meats and other stockyard products, but that the prevailing tendency was toward a still lower. ### AD-TALK

What would you think of a salesman who reported for duty one day, lay off for two, worked a half day, went off for a week and so on without any regularity? Surely you would expect poor service from such a man. And yet some merchants hold advertising, which is simply a "salesman," up to great results when it is allowed to "work" very irregularly.

The fact that advertising costs money is proof of its value. Things without cost are usually worth only their price.

"What do you think of a man," said one of our set to me one day, "who admires that which is bad, and despises that which is good?" I asked him what he did with his money. He said that he was keeping it for his own use. "You fellows," he would say, "don't spend money on each other because you wish to, but because you are afraid of being considered mean if you don't." Ergo, you are mean. Nevertheless, I think that there can be some generosity in your case, for you do spend money, while I, who do not spend mine, show myself to be absolutely mean and selfish."

This man would start new arguments that had already been worn threadbare, and at the end of every argument Poland would lose another friend.

"What do you think of a man," said one of our set to me one day, "who admires that which is bad, and despises that which is good?" I asked him what he did with his money. He said that he was keeping it for his own use. "You fellows," he would say, "don't spend money on each other because you wish to, but because you are afraid of being considered mean if you don't." ### ANOTHER RECORD FOR AIRMAN

Eugene Ely First to Fly From Steamer Deck to the Shore

Norfolk, Va., Nov. 15.—Eugene Ely, flying in the Curtis biplane, "Huston" biplane, yesterday made the first successful aero-plane flight on record from the deck of a vessel.

From a point in Lower Chesapeake Bay, presumed to be about thirty miles from Norfolk Navy-yard, his objective point, Ely this afternoon sailed from the deck of the United States scout cruiser Birmingham, landing within fifteen minutes afterwards at Woolsough Spit, a narrow strip of sand running out from the main land on the south side of Hampton Roads, just opposite Old point Comfort, and about eight miles from Norfolk.

When Ely flew from the deck of the cruiser, his biplane struck the water and broke one of the propeller blades. This forced him to make a landing after he had traveled a distance of about two miles. The biplane landed on the sandy beach only a few feet from the water. Ely was uninjured.

### Small Women Vote?

If they did, millions would vote. Dr. King's New Life Pills the remedy for women. For banishing Sciatica, Neuralgia, Rheumatism, headache, constipation, dispelling colds, imparting appetite and toning up the system, they're unequalled. Easy, safe, sure. 25¢ at all druggists.

### "Bad Jake" Noble Alive and Still at Large.

Jackson, Ky., Nov. 10.—"Bad Jake" Noble still alive and at large, and his place of hiding is a mystery. The officers of Breathitt county are receiving some criticism for not securing the outlaw's arrest and an effort is being made to raise a searching party of private citizens to make a search of the entire county in an effort to locate and arrest the assassin.

When a cold becomes settled in the system, it will take several days to cure. There is no better remedy to use is Chamberlain's Cough Remedy. It will cure quicker than any other, and also leaves the system in a natural and healthy condition. Sold by Geo. King & Sons.

### Will Pay Indemnity.

Morocco will pay Spain \$13,000,000 indemnity, as demanded by the latter Government following the successful Spanish campaign against the Riff trigran in 1909.

### County Board of Education Holds Meeting.

The county board of education met in Madisonville Monday with John Harland, Paul Moore, C. H. Eastwood, M. F. Cox, B. L. Franklin, G. B. Harrelson, J. L. O'Bryan and A. J. Fox present. Grady Hampton was the only absent member.

Very little business of importance came up before the meeting. The report on the completion of the Hillside school house was accepted and the building ordered to be paid for. All the claims presented to the board were allowed and ordered paid.

Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Mothers are never without it in their homes and it has never disappointed them. Sold by Geo. King & Sons.

### Stork Visits White House, Brings Baby to First Cow of Land.

Washington, D. C.—There was an addition to the White House family election day, November 8, when Pauline Wayne, the first cow of the land, gave birth to a husky boy calf in the White House stables. The youngster weighs 100 pounds and was christened "Governor Simon S.," At the stable it was reported that "both mother and infant are doing well." Pauline Wayne is a cow of wonderful pedigree, presented to President Taft by Senator Stephenson, of Wisconsin.

This article was handed to the Semi-Weekly B. & B. by Major J. R. Rish, of this city, who suggests that the name of the calf now be changed to "Governor Dix."

Many school children suffer from constipation, which often is the cause of seeming stupidity at lessons. Chamberlain's Stomach and Liver Tonic is an ideal medicine to give a child, for they are more gentle in their effect, and will cure chronic constipation. Sold by Geo. King & Sons.

### Go to Pen.

Oscar Straus, a deputy internal revenue collector, of Jackson, Miss., was sentenced to three years imprisonment on charge of embezzlement yesterday.

Maxwell Stock Company Engagement Three Nights.

The Maxwell Stock Company are engaged at a week at

Lodging Opera House last night with "A Wyoming Girl," a strong drama of the West, that took well with an appreciative audience.

The company carries with it special scenery, and its corps of a score of players is well chosen and well adapted to the various roles.

Miss Hazelton, in the leading role of "A Wyoming Girl," captivated her audience with the manner in

she portrayed the chapter of a rollicking western girl, and every member of the cast did creditable work.

The spectacles introduced between the acts were unusually good.

### Four-Fifths of Your Store's Patrons Were

Won by Advertising—And Four-Fifths of These Would Be Lost if You Stopped Advertising!

Newspaper advertising is a part of all worth-while store-service—a part of it which patrons particularly value. For it keeps them in touch with your store-events, your sales, the arrival of new stocks, the showing of novelties, the buying opportunities which your store must create for its friends.

The advertising becomes the link between the store and its clientele. They expect the store's advertising to SERVE THEM—not now and then, not partially; but ALWAYS, and fully! To curtail the advertising—in volume or frequency—would make the same impression on them as though you moved into smaller quarters and cut down your force of clerks and workers. To INCREASE your advertising to make it more complete as "store news," as a "market letter," as a bulletin of bargains—will have the effect of enlisting a lot of new store-friends every day, and of winning anew all of the old ones!

### The Old Order Changeth

Time was when young men thought it necessary to go to the larger cities and towns to purchase their clothing in order to receive the proper cut and a correct fit. NOW the young men can get the correct thing at a much lower correct fit in the smaller places. But Misses the S. C. G. sell their garments in the stores in the larger places. We attribute our clothing and success to the fact that in handling the nobility line of clothing to be had we are able to sell them cheaper than our competitors, in the larger places, and we want every young man that wants clothes and is particular about them to examine our line and let us demonstrate to him where we can save him money.

#### THERE IS A REASON

Why it pays to advertise in the SEMI-WEEKLY BEE:

It reaches a large number of wage earners who take no other paper.

It has an almost exclusive circulation in a community where \$50,000.00 in money is paid out each month.

It is read by hundreds of people who buy what money they have to pay for what they buy.

The only way to get your advertisement before the people of Earlington, Mortons Gap, St. Charles and immediate vicinity is through the medium of the Earlington Bee. A hint to the wise is sufficient.

The big and resourceful United States, with its enormous crops of corn and oats and splendid production of wheat in this year of our Lord 1910, has a topped over the high prices of commodities, and even breakfast bacon, that takes so long to cure up sweet and nutty, is going to be cheaper. The grains are still declining in price and their products are now and must continue to decline. Farmers are rushing their cattle and hogs and sheep on the market rather than feed them through the winter and we shall have meat to eat without pawning the organ or the sewing machine. Trust the Lord of Harvests and this Fair Domain this paltry eighty million of droppers and squatters now camping within its bounds.

The value of the capital stock of a Chicago mail order house has increased 1,245 per cent since the low point of 1907. Good indication of whether Earlington people who do their buying by mail are "paying the piper".

The Lexington Herald says the King of Siam died and left four hundred wives and incidentally adds he is better off no matter whether he went up or down.

#### NEW ENTERPRISE FOR MORTON'S GAP

P. L. O'Brien Will Start Undertaking Establishment at That Place.

M. P. L. O'Brien, of Madisonville has sold his residence on West Broadway to Gus Ulrey and will move to Mortons Gap where he will open an undertaking establishment. There is a splendid opening at that place for a concern of this kind. Morton's Gap is a rapidly growing town and the country adjacent is thickly populated. It was not only expensive but inconvenient every time a citizen of this place died to be compelled to come to Earlington or Madisonville to make funeral arrangements.

#### DESTROYS SLEEP

Many Earlington People Testify to This.

You can't sleep at night, with aches and pains of a bad back.

When you have to get up from urinary troubles;

All on account of the kidneys.

Doan's Kidney Pills bring peaceful slumber;

They cure all kidney ills.

W. A. Toombs, contractor and builder, Clark Street, Earlington, Ky., says: "It is a pleasure for me to publicly acknowledge the benefit I have derived from the use of Doan's Kidney Pills. This remedy cured me of kidney disease in a remarkably short time, after other preparations had failed to give relief. My back was so lame and sore that I could scarcely stand, and I was always afraid of getting a good night's rest by too frequent and painful passages of the kidney secretion. I was finally advised to try Doan's Kidney Pills and procured a supply at the St. Bernard Drug Store. I was completely cured, and am glad to give Doan's Kidney Pills the credit for my present good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

#### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the membranes of the auditory tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness results, and unless the inflamed tube can be taken care of this represents its normal condition, hearing will be destroyed; nine cases out of ten are caused by Cataract, which is nothing but an inflammation of the eye.

We will give One Hundred Dollars for any case of Deafness (caused by cataract) that cannot be cured by Hall's Cataract Cure. Send for circulars, free.

Sold by Druggists, 75.  
Take Hall's Family Pills for constitution.

#### Will Take Charge of the K. K. Band

Frank Pro, proprietor of a barbershop, in Sebree, will have charge of the K. K. Band from now on. Mr. Pro will come from Sebree every Monday afternoon to instruct the band and conduct the practice. He comes well recommended and is a musician of rare ability, being a composer as well as leader. The already good band will be greatly improved under his tutelage, and will doubtless become one of the crack bands of the State. Mr. Pro once was a prominent member of the noted Sousa's Band.

#### Home Talent Soon

The K. K. Band will put "My Uncle From Japan" on the boards at Temple Theatre some time during the Holidays next month. They will have a strong cast, and should have full house, as they doubtless will.

A specific of pain—Dr. Thomas' Elixir Oil, stronger, cheapest liniment ever devised. A household remedy in America for \$5 years.

Cheaper to Live, Even Now.

Some one who takes a rosy view of life, gets off the following:

"There are men who argue that living is high, but they might go dying. A live man gets shaved for 10 cents, but a dead man pays a dollar and never kicks. A good Jersey overcoat costs \$25, but a woollen one costs \$100. A grave digger will plant potatoes for 25 cents on hour, but for planting you he gets four times as much. A carriage to the theatre costs \$2, but one to the cemetery costs \$5. A saloon keeper will give you time to live, but for a drink he gets \$7.50 for the job. Come to think of it, there are lots of things left to live for in this old world, despite the high price and the contrary weather."

# DULIN'S

By far the biggest week's selling this store ever knew has sold us out completely on many lines and made big inroads on many others, so much so that Smith Dulin left for St. Louis as soon as the sale was over to buy our second fall and winter stock.

We knew that the big million dollar stock of B. Lowenstein would be offered for sale Monday in St. Louis regardless of cost. We wanted to cut our stock down and be ready for it. We did this and are ready. Mr. Dulin, together with the buyer from each of our associated stores, will be on the ground with the ready cash to secure for our people the cream of this big stock. No quantity is too large for us if the price is right, and as this whole million dollars of merchandise has to go we expect to scoop some wonderful bargains for our people.

A wire from Smith Dulin just received, stating that he has bought some splendid lots of merchandise at about half value.

The very grave seemed to yawn before Robert Madsen, of West Burlington, Iowa, when, after seven weeks in the hospital, five of the best physicians gave him up. Then was shown the marvelous curative power of Dr. Elmer B. Bitter. For after eight months of painful suffering from liver trouble and yellow jaundice, getting no help from other remedies or doctors, five bottles of this medicine more than fully cured him. It's positively guaranteed for Stomach, Liver or Kidney troubles and never disappoints. Only \$5.00 at all druggists.

### A Southern Magazine.

Six years have passed since we ventured to publish a Magazine representative of the South and West. Today we stand alone in the light of a successful and progressive literary Magazine, devoted exclusively to the interest on the Southern and Western People. The field which we represent cannot be covered by any other publication, that is why we stand on solid ground. We are instrumental in the development of Southern Industries. We give the people an opportunity to read of what is being done in the South. This is a brief outline of what the Taylor-Whitwood Magazine is doing. We are satisfied that this is the best one dollar and fifty cent magazine published, but we are not satisfied with our mailing list. You may get other magazines for less than \$1.00, but you can't get the Taylor-Whitwood. It is worth that at least.

## A DOCTOR'S REVENGE

By ALBERT CHITTENDEN  
Copyright, 1918, by American Press Association.

When I was a young doctor just graduated I found making a living a very difficult job. I wished to start in by doing hospital work. There was an excellent hospital in a suburban town where I knew some people, and I was advised to take the examination for the position of house surgeon, which was vacant. I did so and failed. The question that turned the scale against me was this:

"When you have done everything in your power for a patient, what is the next step?"

Having a vein of satirical humor in me, I answered the question in this wise:

"Get rid of him by sending him on a trip."

I saw by the grim looks of the examining physicians that I had lost. The man who got the position answered the question in this wise:

"Success is to be expected when I have no apparent connection with the patient's ailment. To cease your efforts indicates to him that you have abandoned him. To continue there gives him the benefit of hope. Besides we must never give up a patient till he is dead."

While I was struggling for a privilege I one day received a hasty call to see a child who had got a coin in his windpipe. He was only four years old and the coin was stuck in his windpipe.

He was so delighted that he put it in his mouth and started across the street to buy candy with it. Forgetting it, he breathed it in.

When I reached the patient I found two or three doctors had been called in. The message came was not in my office. The oldest and foremost doctor of those present was Dr. Gibbs, who ten years before had doored me on examination by asking me what should be done with something he had done. He didn't remember me, and I was glad he didn't, for I dreaded to meet him.

I found these doctors in the very position occupied by that patient. They had done something that could be done, but they hadn't removed the coin from the child's throat. Dr. Gibbs appeared to be the most despondent of the lot. Assuming a drowsy tone, I said:

"What are you gentlemen doing here, standing about and holding your hands? Are you going to let the child die of strangulation?"

My remarks were made to all the

doctors present, but as I spoke I looked daggers at Dr. Gibbs.

"We've tried everything," he said.

"Well, sir, what's the next thing to do when you've tried everything?"

"Perhaps you can tell us," he retorted.

"Yes, sir; I can. When a doctor has tried everything and all things have failed it is his duty to try something else, no matter how remote it may seem from the patient's ailment."

"Well," said Dr. Gibbs, "what do you suggest?"

"Desperate cases need desperate remedies."

I made three steps toward the child, took him by the hand, and began to spank him unmercifully. He yelled, and before I had given him twenty swats came out an old fashioned copper cent. I fell on the floor, rolled in a circle, and turned on its side.

He never stopped spanking him. I had had no idea of getting rid of the obstruction. I had only wished to beat at his own game the man who had kept me out of a position which might have enabled me to start a practice.

Dr. Gibbs had succeeded I resolved to push on furiously.

"There, gentlemen," I said, "you have an instance of the importance of never giving up a case. Perhaps success in this case was not to be expected by my example."

"Success was to be expected," exclaimed one of the doctors. "It's a wonder that we who were here before you didn't think of it. The spanking induced in the child an emotion which called into play muscles, relaxes the obstruction." To this he added, "The obstruction, which was loosened by this relaxation, was bound to come out."

Dr. Gibbs advanced toward me and put out his hand.

"I am a son of honor of your acquaintance, doctor," he said. "But I do not hesitate to say that you have in you that resource which eminently fits you for your profession. I shall write up your device used in this case in the *Text-Book of Pediatrics* and if there is anything else I can do for you I don't hesitate to call on me."

I didn't need to call on him. He and the other doctors who had been present, including Dr. Gibbs, had all been sent to the hospital to be inspected for their service.

## A New Method of Rescue

By ROCKFORD KING

Copyright, 1900, by American Press Association

People wonder why I took such interest in aeronautics. I continually practised at driving my machine when I studied different makes. Then, when I had taken a flight into a distant land, when no one knew where, and after my return all my interest in air navigation had vanished, they wondered still more.

I have been a great traveler, though I am not yet thirty years old. Some years ago while in Russia I made the acquaintance, followed by the friendship, of a member of the American embassy, at St. Petersburg. In this way I saw something of court life there. In 1895 I was invited to a ball at which I was introduced to the daughter of a general in the Russian service. Not for an earldom would I give her name, so I shall call her Sophia. In my travels I have picked up a number of foreign girls. Russian I speak naturally, and Sophia spoke English well. There usually comes in a man's life, if it comes when he is young, some woman who appeals to him as no other woman has ever appealed to him. From the moment I met Sophia I knew that she was the girl for me in my path. I must confess, also the vitality had passed out of my life.

I went to my hotel after my first meeting with her to his awake half the night with the comfort one feels in having found a mate, and the other half I slept soundly. From that time for several months I was with her as often as Russian etiquette allows. I danced with her, I skated with her, I met her at the opera and on court gala occasions. She gave me unmistakable signs that in me she had found what I had found in her. But when I told her all my story her whole manner changed.

"No, no, no," she moaned. "I have permitted myself to sink into a dream. You have awakened me. I have done very wrong. Go away from me. Forget me."

What there was between her and me that led her to talk thus I could not induce her to tell. I left Russia and tried to forget her. I continued my travels, but the interest for me had gone out of them. I had a taste of travel. The pyramids, the Coliseum, the works of art that had before fascinated me were now unable to move me.

One day I took up a newspaper and saw by telegraph from Russia that a conspiracy against the life of the czar had been discovered. Sophia was the daughter of a prominent general and had been implicated. Something told me that she was Sophia. I returned to St. Petersburg to learn that my anticipation was correct. But I loved her and she had already been sold. Now I must return her to the court toward me.

I felt that a great work had sprung up before me—the work of liberating Sophia. A famous traveler was in St. Petersburg at the time and was about to start, with the permission of the czar, for Siberia. I wrote him to inquire the condition of Siberia's exile. I succeeded in inducing him to appoint me his secretary, or amanuensis. In this way I would be able to locate the girl I had made up my mind to free. On the strength of the present report I learned that Sophia's master had been compelled to secure for her simply not imprisonment. She was living in a hut close by a prison. Escape for her was as impossible if she had been with stone walls. But her position was encouraging. Her master, whose life work was to take her out of Siberia, I saw her, talked with her and told her that during the same month (August) the following year to expect me with means by which to give her her freedom.

The autumn and winter I was known to be one of the principal devotees to the navigation of the air. I tried every kind of aeroplane that had been invented. I made long flights both by day and by night. I flew to the Land of the Czar, to the court of the czar, that I might better be used to flying in the cold. I tried for no prizes, entered no contests. I worked with one purpose in view. That was to make a flight to Russia, swoop down by the ant in which lived my love and bear her away to freedom.

I had a machine made by which I found a machine especially adapted for my purpose. I transported it by sea to Sweden. From there to my destination was not far, but I must make the journey in one flight with only one stop. On October 1 I rose to a height of 300 feet and drove my machine eastward. I purposely kept at a considerable height till I stood directly over the soprano that I might attract the least possible attention. From where I was poised was a situation that I could not have imagined. I hoped that she might be outside, but she was not. I descended to her door. All was silent. I was about to leave the machine to enter the hut when I saw her face at the window, and in another moment she was sitting there in a chair made of straw. I had decided to start by driving my machine with apparatus especially adapted to the purpose, and, though keepers were by this time running toward us from every direction, we rose above them and the shots they sent up in time to save ourselves.

At last we were safe. From there we traveled southward, till we reached Myslinska, where we took a steamer.

We are now both in America and are soon to be married.

### PERT PARAGRAPHS.

An eight dollar suit seems to look well on your dearest chum, but when you try one yourself—well, that's another story.

Most any of us can read the signs of the time nowadays because they are painted on all the billboards,

In quarrelsome time prepare to make peace profitable.

No wonder we are all so worn and tired out; we are chased by an army of microbes day and night.

When a woman suffers in silence it takes all of her time and strength to tell her neighbors about it.

No roast, whether verbal or culinary, is much relished if it is overdone.

The reason why a woman seldom listens to her husband is because she has heard it all before.

### Lamplight.

I'd like to duck this care and strife And go to lead the quiet life. I'd like to have a home where I'm strong, If I could take some things along.

Let's see, my books I want to take, My yacht to sail around the lake, Three trunks of useful things wear, A hammock and my easy chair.

Oh, yes, the simple life for me!

"Oh, come here, doggie, come here!"

**But Not Remunerative.**  
"My intentions are good, anyway."  
"Yes, but you know you been owing me a long time."

"True, but can't you give me credit for my good intentions?"

## Presence of Mind.

A visitor to an insane asylum was walking in the grounds when a man came up to him and entered into conversation. After walking about for some time, discussing topics suggested by the visitor, the two reached the foot of a flight of steps, up which the guide led the way, and at the top the visitor stopped, and on motion the man a height of more than a hundred feet from the ground. As they gazed below his companion started him suddenly by proposing to see who could jump farthest toward the ground! Not until then but the visitor said, "Wait, this guide was mine. And, if he was a man of ready wit, and his wit saved the madman's life." "Oh, anybody can jump down," said the visitor. "Let us go down and see who can jump to the top." The madman thought it a good idea, and retracing their steps, the two began their jump from the earth instead of from the roof.

## The Mammoth Cave Rat.

The cave rat found in the Mammoth cave is of a dark bluish color, with white nose and feet. It has enormous eyes, black at night, but quite unprowided with an iris. These eyes are perfectly insensible to light, and when the experiment has been made of catching the cave rat and turning it in broad sunlight, it blunders about, striking itself against everything, is unable to provide itself with food and finally falls down dead. In its native depths, however, it is able to lead a comfortable enough existence, as its enormous long whiskers, which are very sensitive, enable it to find its way rapidly through the darkness. The principal food of the cave rat consists of a kind of large cricket of a pale yellow color and, like most other cave dwellers, itself perfectly blind.

## Life of Roosevelt and His Strenuous Hunt in the Deep Wilds of Africa!

The Semi-Weekly Bee one year and the Book for \$1.50, price of book alone

The book comprises nearly four hundred large octavo pages, printed on fine paper and beautifully bound, with scores of magnificent, full page phototype engravings of scenes in the heart of Africa; its dark mysterious forests, mighty rivers and far stretching plains; with pictures of lions, elephants, giraffes and of other strange animals, hitherto unknown to civilization, that Theodore Roosevelt has killed.

What a scene for a thrilling story! Africa the Dark Continent, the Land of Mystery. Mere descriptions of it have always been interesting. The accounts of Livingstone and Stanley have sold heavily in United States, but the story of Theodore Roosevelt, who is one of us; the every day, intimate history as told by the friends and companions of his trip, has a fascination absolutely incalculable.
